Great Northeastern War Shenanigans

As a reminder, Quintavia isn't not the combattant for the War this year*

The listed combattant is the Shire Von Sosse

Fortune is the General for Von Sosse

The colors of Von Sosse will be Orange and Blue

Von Sosse is an ethereal collective compound of chaos**

A mirror universe, one might say

Mustaches and pointy goatees are encouraged

“Are they more salty than spicy?”

If you would like a belt favor, contact Fortune

* This is schtick. There aren't any official rules for who can and can't be one of the “sides” for GNEW. We are using the Quintavia organizational structure for coordinating with the autocrat/event staff, but Quintavia is not battling Malagentia directly.

** There was never an official Shire Von Sosse, but it was incipient. See
